

Stand Alone Bases Feeding Schedule

Keep it Simple!

Nectar 2-Part Bases contain all the nutrients your plants need.

For hydroponic gardens, use Nectar Hydroponic Formula.
 For soil gardens use Nectar Soil Formula.

	Nectar A	Nectar B
Strong Grow Blend	15 ml	5 ml
Mild General Purpose	5 ml	5 ml
Normal General Purpose	10 ml	10 ml
Transitional Blend from Grow to Bloom	7.5 ml	12.5 ml
Mild Bloom Blend	5 ml	10 ml
Strong Bloom Blend	5 ml	15 ml

- Can be used during all phases of plant growth from seedling to harvest.
- Can be used for all gardening methods: soil, soil-less, coco, hydroponics.
- Apply as foliar spray for enhanced growth.
- Suitable for use with hard or soft water.
- Keep nutrient solution temperature below 75°F (24°C).

Warning: Never mix nutrients together in concentrated form, add to water individually only.

1 TSP = 5 ml	1 Qt. = 946 ml
1 TBSP = 15 ml	1 Gal = 3.785 L
1 oz = 30 ml	1 Gal = 128 oz
